

Software Engineer

Do you have the passion to build exceptional quality web applications? If yes, we would love to have you on our team.

Your responsibilities will be to

- 1) Develop our Musafir.com website and other core applications that help run our business.
- 2) Quickly learn new software technologies as and when required.
- 3) Understand the tasks given to them, and strive to complete them within stipulated time with best possible quality
- 4) Use good engineering practices that ensure quality products - automated testing, unit testing, agile development, continuous integration, code reviews, and technical design
- 5) Participate in internal product improvement, evaluation and beta testing exercises
- 6) Analyzing the use of different tools and libraries, and creating proof of concepts for aiding decisions on system architecture

You'll need to have

- 1) Engineering degree in Computer Science, Information Technology or a related subject
- 2) Exceptional problem-solving, troubleshooting, and organizational navigation skills
- 3) Basic English communication skills

The ideal candidate is

- 1) A team player who takes pride in their work, has an eye for detail and a sharp mind
- 2) Comfortable in a fast-paced entrepreneurial environment that requires improvisation

In return we offer

- 1) A work environment with the region's best
- 2) A highly competitive salary commensurate with experience and travel perks
- 3) An opportunity to shape the future of travel

Who are we

Musafir.com was founded in 2007 as the UAE's first premium-experience travel website and has expanded across the region over the last ten years.

We are currently pursuing an ambitious expansion plan in India and the Middle East, and are looking for talented professionals to help deliver our vision of the next generation of travel services.
